***In situ* Captive Growth Performance and Conservation Potential of Native Tilapiines in Lake Victoria, Kenya: A Case Study of Rasira Beach**

Published On: May 14, 2026 | Pages: 001 - 008

Author(s): Tonny Orina Sagwe*, Robert Nesta Kagali, Kevin Mbogo, Michael S Cooperman, Les Kaufman, John Okechi, Paul Sagwe Orina and Mercy Chepkirui

The endangered native tilapiine cichlids *Oreochromis variabilis* and *Oreochromis esculentus* have declined dramatically in Lake Victoria due to introduced species, overfishing, and habitat degradation. This study evaluated the potential of cage aquaculture as an ex-situ conservation tool for these species by assessing growth performance, survival, natural reproduction, ...
