Spectrum of *Leishmania donovani* infection in the Southwest of Sudan: A rapid epidemiological mapping

Published On: September 16, 2019 | Pages: 008 - 011

Author(s): Sharief AH*, Khalil EAG Elmagzoub RM and Omer SA

This epidemiological survey was based on simple immunological techniques (leishmanin skin reactivity and the direct agglutination tests), combined with clinical history to obtain data about the spectrum of L. ...
