New Aspects of Treatment and Organ Involvement in Pediatric Tuberous Sclerosis

Published On: December 31, 2025 | Pages: 001 - 004

Author(s): R Marinov*, Iv Chakarov, D Avdjieva-Tzavella, V Dimitrov and R Iliev

Tuberous sclerosis complex (TSC) is a rare genetic disorder marked by benign tumor formation in multiple organs, frequently involving the heart and central nervous system (CNS). We present a case study of a premature infant with genetically confirmed TSC and coexisting cardiac rhabdomyomas (CRs) and subependymal giant-cell astrocytomas (SEGAs). The patient wa ...
