A Protocol for the Computational Design of High Affinity Molecularly Imprinted Polymer Synthetic Receptors

Published On: April 14, 2017 | Pages: 001 - 007

Author(s): Kal Karim*, Todd Cowen, Antonio Guerreiro, Elena Piletska, Michael J Whitcombe and Sergey A Piletsky

Molecularly imprinted polymer (MIP) nanoparticles, commonly referred to as 'plastic antibodies' or synthetic receptors, are polymeric materials with strong affinity and selectivity for a particular chemical target. ...
