Mechanistic and Therapeutic Advances in Colon Cancer: A Systematic Review

Published On: January 29, 2019 | Pages: 001 - 012

Author(s): Xuena Li, Ying Han, Aihua Zhang, Jianhua Miao¹, Hui Sun, Guangli Yan, Fangfang Wu and Xijun Wang*

Colon cancer is a common gastrointestinal malignancy in daily life and is the third most common cancer. So far, the global incidence of colon cancer has risen every year. Colon cancer mortality accounts for half of the incidence, colon cancer mortality ranks fifth in malignant tumor mortality, which seriously threatens human survival and health. This article refers to ...
